

Synthetic estimation study

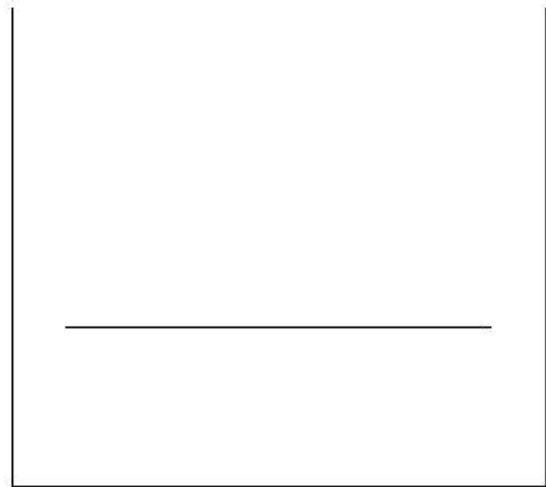

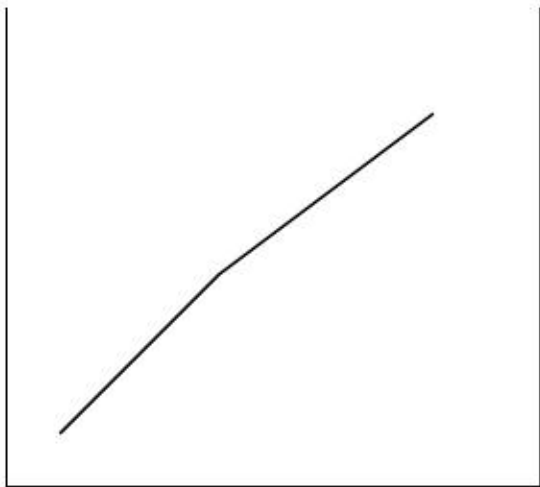

Equation 1: $y = 2x + 1$

Training rate = 0.001

Table 1: x 0 1 2; y 1 3 5

Figure 1: (a) response plot (b) residual plot

Baseline follows [12].

Results and implementation details

Training rate = 0.01

Figure 2: error curve at $x = 0, 1, 2$

Reported error = 0.05
